Experience

Digital Personal Shopper Aug. 2026 – Present
Walmart Supercenter *Willow Grove, PA*

- Process customer orders using handheld scanners and digital inventory systems while maintaining accuracy and meeting timed pickup windows.
- Verify item quality, quantities, and substitutions to maintain accurate customer orders and inventory records.
- Communicate with customers and team members to address order discrepancies and provide quality customer service.
- Prioritize multiple tasks in a fast-paced environment while balancing efficiency, accuracy, and customer satisfaction.

Education

Community College of Philadelphia Philadelphia, PA
Associate of Applied Science in Cybersecurity & Networking *Expected May 2028*

- **Relevant Coursework:** Network Technology, Introduction to Information Technology

International Christian High School Philadelphia, PA
High School Diploma *June 2026*

Technical Skills

Networking: TCP/IP, Subnetting, IP Addressing, Router and Switch Configuration, Network Troubleshooting
Operating Systems: Linux (Command Line, File Management, System Hardening), Windows Server 2022
Scripting & Automation: Bash, PowerShell
Security: Linux System Hardening, Security Fundamentals
Tools: Cisco Packet Tracer, Git, GitHub

Technical Projects

Network Configuration & Troubleshooting Labs | *Cisco Packet Tracer* Fall 2026

- Configured routers, switches, and network devices using Cisco Packet Tracer.
- Assigned IP addresses and subnet masks to establish network connectivity.
- Tested network connectivity and troubleshot configuration issues in simulated network environments.
- Applied TCP/IP networking and subnetting concepts through hands-on network labs.

Windows Server Administration Lab | *Windows Server 2022* Fall 2026

- Practiced basic system administration tasks in guided Windows Server 2022 labs.
- Used PowerShell commands to navigate and interact with Windows Server environments.
